

HADE ENERGIA GLOBALE
AN ESTATE & ENERGY
TRADING COMPANY

The Company

Active as a trading company since February 2017, Hade collaborates with Indonesian local estates, mills and refineries to optimize the value of domestic commodities in order to export orientation, particularly Oil Palm products, including its derivatives and also by products. Sustainability, management and rational resources are used to represent the target value that Hade follows when developing projects.

We aim to enlarge its portfolio activity to foreign markets and to improve the services offered.

The Vision

Make the Oil palm commodity to have a better reputation, by maximizing and re-branding the utilization of Oil palm products, its by-products, and wastes for the sake of Oil palm future.

The Mission

- ☑ Empowering the utilization of Oil palm products to be more valuable, both for food and energy use
- ☑ Educating Indonesian Oil Palm Industry to be better sustained, and people about Oil Palm benefits globally
- ☑ Perform and planning a keen research and branding management regarding the Palm Oil
- ☑ Manage, develop, and execute each project and networks for the better Oil palm business.
